

**Product Description:**

Rantzows Badminton Posts

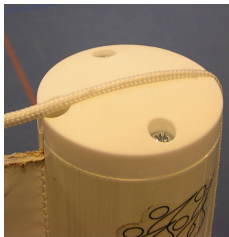

**Product Code:**

BAD-R

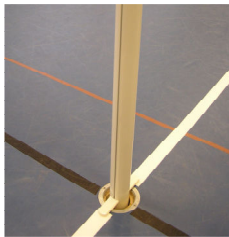

Top quality anodised aluminium posts incorporating a unique net tethering system. Net edges slot neatly into a channel in the post itself, with net headlines securing by means of clam cleats.

Available in a range of fixing types to suit virtually any floor construction or operational requirement.

- Socketed Posts, with 66mm diameter sockets. Sockets require professional installation - please ask

- Floor anchored Posts, with simple floor plate and locating hook to securely locate post in position without the need for weights or coring of sockets. Floor plates require professional installation - please ask.

- Weighted Posts, with 34kg weighted bases, requiring no sockets or floor plates. Additional 13kg weights are available to upgrade for competition level use.
