

Product Description:

International Volleyball Posts - Wheelaway

Product Code:

VBL-MAT-WHL-R

Anchored, wheelaway version of the international volleyball post used by the Swedish national team for all home matches.

These posts have been developed in conjunction with volleyball clubs in Sweden. They meet the requirements for competition volleyball and are suitable for sport centres and competitive league volleyball. An important addition for any sports hall.

- Elliptical shaped volleyball upright posts to meet the latest specifications
- Spindle type tensioner to ensure and maintain correct volleyball net height
- Aluminium uprights to reduce weight and facilitate handling
- Rapid and easy height adjustment pre-marked at the standard heights for men's, women's and schools volleyball
- Four floor anchors per pair
- These posts conform to EN1271

Net height is adjusted by sliding the integral tensioning system within the aluminium channel to the required, pre-marked height and securing in place using a handwheel. Correct net tension is achieved using a safe and simple spindle, operated by a removable handle to prevent unwanted tampering.

**Dimensions:***Diameter: 66mm, Height to suit all levels of play***Colour:***Natural***Materials:***Anodized Aluminium***Variants / Accessories:**
